### RELEVANT EXPERIENCE:

#### ONTARIO MINISTRY OF EDUCATION

Toronto, Ontario

##### QA Analyst

January 2023 - August 2023

- Collaborated closely with the Development Team to analyze business rules and create effective test cases, enhancing application functionality.
- Developed and executed comprehensive testing plans, test scenarios, and meticulously crafted test cases for web application modules, ensuring rigorous quality assurance.
- Utilized Jira and Microfocus ALM to log defects meticulously, contributing to a 25% faster resolution time, thereby enhancing application quality and performance.
- Identified and documented over 200 bugs using ALM, providing detailed reports that facilitated faster resolutions and improved team communication.
- Contributed to the successful launch of three major software releases, meeting all deadlines and quality standards.
- Mentored and guided new team members, resulting in a 20% reduction in onboarding time and ensuring their seamless assimilation into testing methodologies and processes.

#### SENECA POLYTECHNIC COLLEGE

Toronto, Ontario

##### Teaching Assistant

September 2023 - August 2024

- Assisted around 40 students per semester in understanding programming concepts and troubleshooting coding issues, resulting in a 15% increase in overall course pass rates.
- Facilitated understanding of programming concepts through individualized support and instructional sessions.
- Provided feedback on student projects, helping improve coding standards and encouraging best practices in software development.
- Assisted in the setup and maintenance of lab equipment and software, ensuring a reliable and efficient learning environment.
- Monitored and invigilated examinations to ensure adherence to academic integrity and proper exam conduct.
